

8/29/2025

To whom it may concern,

I (Alex Blackburn) would like to officially enter my name for consideration of appointment to the vacant council position of the City of Three Forks.

I have served on several boards for the city over the last 6 years and would love the opportunity to further serve our community. I have a long-standing interest in the workings of civil development and the infrastructures of a city/community.

In my 30 years of construction and development in MT. and FL. I was fortunate to be a part of the development and planning of multiple subdivisions and island management. I have worked in the corporate branch of the construction industry and have an excellent grasp of the procedures of bureaucracies and formalities of serving on a board. I have an open mind to other opinions and past experiences and have a history of sound decision making. I work well with budgets and time frames.

I look forward to answering any questions you may have for me.

Thank you,

Alex D Blackburn
